

Resume

Basic Information

Name : ZELE SHIVANI SANTOSHRAO

CCPP ID : Not Assigned

Course : PG-DAC, Feb26

Address : At. Post Alandi, Tq. Biloli, Dist. Nanded, Maharashtra, Nanded-Waghala, MAHARASHTRA

Academic Details

Level	Stream	Institute	Board/University	Passing Year	Degree %	Division
BTech	Computer Engineering	Jayawant Shikshan Prasarak Mandals Rajarshi Shahu College of Engineering Pune	Savitribai Phule Pune University	2025	78.2 %	I
DIT	Information Technology	Government Polytechnic Pune	Government Polytechnic Pune	2022	89.53 %	I
XII	Science	Vai Dhunda Maharaj Deglurkar Mahavidyalaya, Degloor	Maharashtra State Board of Secondary and Higher Secondary Education MSBSHSE, Pune	2019	55.84 %	II
X	General	Bhaskar Madhyamik Vidyalaya, Alandi	Maharashtra State Board of Secondary and Higher Secondary Education MSBSHSE, Pune	2017	90.00 %	I

Academic Projects

Title : InternConnect: Smart Internship Allocation System

Platform : Java, Spring Boot, React.js, MySQL

Duration : 1 Month

Description : Developed a full-stack web application that automates internship allocation using an AI-based matching algorithm. The system enables students to apply for internships, companies to manage internship postings, and administrators to allocate internships based on skills, CGPA, location, and eligibility criteria using secure JWT-based authentication and role-based dashboards.

Title : EnVlab (Enhanced Virtual Lab)

Platform : Web Development

Duration : 12 Months

Description : EnVlab (Enhanced Virtual Lab) is a Lab-as-a-Service platform that enables remote access to virtual classrooms, coding exercises, practical experiments, and assignment submissions. It provides a containerized coding environment with integrated code editor and terminal support, allowing students to write, compile, and execute code online while enhancing collaboration, accessibility, and hands-on learning.

Project Repository : https://github.com/shivanizele/Envlab_project

Title : AI Code Assistant

Platform : Java, Springboot, React

Duration : 1 Month

Description : The AI Code Assistant project is designed to assist developers by generating code snippets and providing intelligent code completion using the OpenAI GPT API. The application integrates a React.js frontend with a Spring Boot backend through REST APIs, enabling users to receive real-time coding assistance and improve development efficiency.
